

DEVAN ALLEN MCGRANAHAN *

* USDA-ARS

LOCAL PERCEPTIONS
OF HYDRAULIC FRAC-
TURING AHEAD OF EX-
PLORATORY DRILLING
IN EASTERN SOUTH AFRICA

Summary

Background

- Fracking would bring new technologies—and impacts—to South Africa
- Several applications for shale gas exploration have been made in South Africa over the last 10 years
- Environmental Assessments and most public interest have focused on the Karoo, but recent exploration applications were filed for eastern SA

Objectives

Here's a citation (McGranahan 2021).
